ALBANY.

The Course followed by a bill from the time of Introduction in the Legislature until it becomes a law, is indicated below:

IN SENATE.

1. Introduction and Reference to Committee.
2. Referred to Committee of the Whole on report from Committee.
3. Ordered to Third Reading and referred to Committee on Revision.
4. Passed and transmitted to the Assembly for action by that house.
5. Transmitted to Governor or to the Mayor, if a city bill.

IN ASSEMBLY.

1. Introduction and Reference to Committee.
2. Ordered to Second Reading on report from Committee.
3. Ordered to Third Reading and referred to Committee on Revision.
4. Passed and transmitted to Senate for action by that house.
5. Transmitted to Governor or to the Mayor, if a city bill.

When a bill is introduced in the Senate or Assembly it is referred to the standing committee appointed to consider that particular subject of legislation. It is printed before it is considered by the committee. When a bill is reported by the committee, either favorably or for the consideration of the house, it is referred to the Committee of the Whole in the Senate. After consideration by the Committee of the Whole it is advanced to a third reading, then revised as to language and form by the Revision Committee, after which it is engrossed and ready for final passage. The procedure is the same in the Assembly upon the introduction of a bill except that an order of business known as "Second Reading" has been substituted for the Committee of the Whole. A bill, passing the Senate or Assembly, goes to the other branch of the legislature, as the case may be, and takes the same course in that branch as though it originated there, unless it is substituted for an identical bill introduced and already on the calendar of that house.

A bill may be reported by a committee either favorably, adversely or for the consideration of the house. If reported favorably or for consideration it advances to the next order of business. If reported adversely the house to which it is reported must agree to the report, which kills the bill, or it may disagree with the report and order the bill to the next order of business. A committee may be ordered to report a bill by the vote of the house. A bill usually is amended in committee, in the Committee of the Whole of the Senate or on the order of Second Reading in the Assembly, although it may be amended on the order of final passage. A Senate bill may be amended in the Assembly, after it has passed the Senate, and vice versa. Such amendments must be concurred in by the house in which the bill originated, before the bill can be transmitted to the Governor, or to the Mayor, as the case may be. The Committee on Revision may amend a bill only as to its grammatical and legal form. A bill must be reprinted each time it is amended and it can not be passed in final form, in either house, unless it has been upon the desks of the members for three legislative days, unless an emergency message from the Governor certifies to the necessity of immediate passage, as provided in the Constitution. Bills may be reported by a committee, with amendments, for reprinting and recommittal for further consideration.

Any member may introduce a bill and any one interested, either personally or through his attorney, is accorded a hearing before the committee to which the bill is referred.

During the last ten days of the session the work of the Assembly committees is taken in charge by the Committee on Rules, which makes up the calendars of the Assembly for the balance of the session. In the Senate the committees have charge of all bills up to the close of the session. The Committee on Rules has power to take a bill from a committee and place it immediately upon the order of final passage. It may also amend a bill in any particular.

Concurrent Resolutions, proposing amendment to the Constitution, which must be submitted to popular vote, are sent to the Secretary of State and do not require any action on the part of the Governor.

A bill may be progressed without regard to the regular order in either house, by unanimous consent or by a suspension of the rules, up to the point of final passage.

During the session of the legislature the Governor has ten days in which to approve or veto a bill. If he does not take action within that time the bill becomes a law. If vetoed, the bill may be passed over his veto by a two-thirds vote of the legislature. All bills passed during the last ten days of the session are treated as thirty-day bills and the Governor has thirty calendar days, after the legislature adjourns, within which to act. All bills not signed by the Governor during that period are dead.

A bill affecting the interests of a city must be sent to the Mayor for approval by the city authorities. The bill must be returned within fifteen days. If returned without approval it may be re-passed in the legislature by a majority vote of each house. Bills returned by the Mayor, without approval, after the adjournment of the legislature, are dead.

Printed Nos. S. 154, 361, 369, 499.

No. 155. By Mr. BLAUVELT.—Inserting a new article 21 in the Judiciary Law, requiring the clerk of every court of record in every county having civil jurisdiction, and the clerk of each county court and of the city courts of New York and Yonkers, and such other local courts having similar jurisdiction as our now constituted courts of record, to transmit to the State Commissioner of Efficiency and Economy within twenty days after January 1, each year, certain civil judicial statistics. The secretary of the Municipal Court Justices' Board of New York City must likewise transmit a statement of the business of their courts. The county treasurer of each county and the city comptroller of New York must furnish the commissioner each year a statement of amounts paid for salaries and other expenses of judges and salaried officers. (Same as A. 282.)
To Judiciary Com.

By Mr. MALONE.—Providing for the establishment of a two-platoon system in fire departments of cities of the first class, hours of day service not to exceed ten, commencing at eight o'clock in the morning and hours of night service not to exceed fourteen, commencing at six o'clock in the afternoon.
To Cities Com.
Mar. 25. Reported. To third reading.
Mar. 27. Passed.
Mar. 27. In Assembly, Rec. No. 564. To Cities Com.
Printed No. S. 328.

No. 323. By Mr. WENDE.—Amending section 351, Insurance Law, by providing that the State Fire Marshal shall not have jurisdiction in cities of more than 400,000 inhabitants, maintaining a municipal fire marshal; such marshal shall forward reports to the State Fire Marshal. The law at present excepts cities having over one million inhabitants from the State Fire Marshal law. (Same as A. 293.)
To Insurance Com.
Printed No. S. 329.

No. 324. By Mr. McCLELLAND.—Amending section 91, Tax Law, by providing that the county treasurer of each county shall be entitled to fees on the amount charged him for State tax, less the amount credited thereon for unpaid non-resident taxes and for taxes upon State lands, the Comptroller being required to pay fees to the

county treasurer on or about October 1 each year. (Same as A. 527.)
To Taxation and Retrenchment Com.
Mar. 24. Reported to Com. of the Whole.
Printed No. S. 330.

No. 325. By Mr. BOYLAN.—Adding new article 11-a, entitled "Habit Forming Drugs," to the Public Health Law, regulating the sale of such drugs. (Same as A. 435.)
To Public Health Com.
Printed No. S. 331.

No. 326. By Mr. WHITE.—Amending section 466, Code of Criminal Procedure, by providing that an application for a new trial upon the ground of newly discovered evidence may be made at any time before the term of imprisonment expires, instead of within one year, as at present. (Same as A. 308.)
To Codes Com.
Printed No. S. 332.

No. 327. By Mr. WENDE.—Amending section 97, Highway Law, by providing that if a highway or bridge proposed to be constructed or repaired is situated in two or more towns in the same county, the supervisors shall, if applied to by any one of such towns, instead of each town, as at present, proportion the expense thereof among such towns as shall be just. (Same as A. 391.)
To Internal Affairs Com.
Mar. 13. Reported to Com. of the Whole.
Mar. 16. A. 391 substituted.
Printed No. S. 333.

No. 328. By Mr. WENDE.—Amending section 240, County Law, by adding new subdivision 9-a, providing that the premium on bonds and undertakings given by a county officer or employee or to a county officer, commissioner or board to secure the faithful performance of such officer or employee, if approved by the supervisors, shall be a county charge. (Same as A. 447.)
To Internal Affairs Com.

Mar. 21. To Governor.
Apr. 17. Approved. Chapter 399.
Printed No. S. 337.

No. 331. By Mr. CARSWELL.—Adding new section 260, Tax Law, repealing old section 260, providing that when real property covered by mortgage is in more than one tax district, the State Tax Board shall apportion the mortgage tax between the respective tax districts on the basis of relative assessments. If the mortgage covers property in two or more counties, the State Board shall also determine the proportion of tax to be paid by the recording officer receiving the tax, to the recording officers of the respective counties, and further providing for the proportionate assessment of tax on a mortgage on real property partly within and partly without the State. (Same as A. 526.)
To Taxation and Retrenchment Com.
Mar. 19. Reported. To third reading.
Mar. 26. A. 526 substituted.
Printed No. S. 338.

No. 332. By Mr. CARSWELL.—Amending section 263, Tax Law, by providing that whenever a duly verified application for mortgage tax refunds is made to the State Tax Board, such board must determine the amount erroneously collected and order the recording officer to refund such amount from mortgage tax moneys; providing for the adjustment by the State Board of mortgage tax moneys paid over by the recording officer in excess of the amount to which the county treasurer is entitled. (Same as A. 529.)

Printed Nos. S. 351, 1060.

No. 345. By Mr. MURTAUGH.—Amending section 10, Transportation Corporations Law, by providing that three or more persons, instead of seven or more, as at present, may become a navigation corporation, and permitting the incorporation of barge companies, and prohibiting any joint stock association from carrying on a freight and transportation business to control in any way any stock issued by a navigation company, domestic or foreign. (Same as A. 450.)

To Judiciary Com.
Printed No. S. 352.

No. 346. By Mr. MURTAUGH.—Amending subdivision 9, section 2; subdivision 3, section 49, Public Service Commissions Law, by including in the term "common carrier" navigation companies and water lines, but not to include a ferry company nor a municipal owned ferry. The Public Service Commissions are empowered to compel a railroad company to charge less than their local rates to all lake, river, canal and seaports or terminals, on through traffic which is to be exchanged with boats or water lines engaged in domestic trade where pro-rating arrangements do not already exist. Where a railroad, in competition with a water route, reduces the rates on the carriage of any freight to or from competitive points, it shall not be permitted to increase such rates until after an investigation by the Commission. The Commission may also establish connections between the lines and freight stations of a railroad and the dock of a navigation company and of a State-owned terminal, and making other provisions relative thereto. (Same as A. 449.)

To Judiciary Com.
Printed No. S. 353.

No. 347. By Mr. WILSON.—Amending section 120, Highway Law, by changing the course of State highway route 20 so that it shall run from Lyons and Newark to Palmyra, in the county of Ontario, through such points as the Commission may determine upon the dividing line between Wayne and Ontario counties, running thence from Palmyra and Macedon to a point on the line between Monroe and Wayne counties. (Same as A. 461.)

FEBRUARY 6.

No. 354. By Mr. FOLEY.—Amending section 12, Railroad Law, by providing that a domestic railroad or street surface railroad heretofore or hereafter incorporated and which has applied for a certificate of necessity within six months after incorporation, must have begun construction and spent 10 per cent. of its capital thereon within five years after the Public Service Commission has issued a certificate of necessity, instead of five years after a certificate of incorporation is filed. The time the road shall be finished must be ten years from the granting of the certificate of consent and not from the time of the filing of the certificate of incorporation. The time, however, during which the corporation may be stayed by injunction or express provision of law or during a proceeding to review the determination of the Public Service Commission, shall not be a part of the time limited for beginning or completing construction. Chapter 478, Laws of 1910, is repealed.

Printed No. A. 452.

No. 449. By Mr. FULLER.—Amending subdivision 9, section 2, subdivision 3, section 49, Public Service Commissions Law, by

including in the term "common carrier," navigation companies and water lines, but not to include a ferry company nor a municipal owned ferry. The Public Service Commissions are empowered to compel a railroad company to charge less than their local rates to all lake, river, canal and seaports or terminals, on through traffic which is to be exchanged with boats or water lines engaged in domestic trade where pro-rating arrangements do not already exist. Where a railroad, in competition with a water route reduces the rates on the carriage of any freight to or from competitive points, it shall not be permitted to increase such rates until after an investigation by the commission. The commission may also establish connections between the lines and freight stations of a railroad and the dock of a navigation company and of a State owned terminal, and making other provisions relative thereto. (Same as S. 346.)

To Commerce and Navigation Com.
Mar. 25. Reported to second reading.
Mar. 26. To third reading. Passed.
Mar. 26. In Senate, Rec. No. 509. To third reading and Judiciary Com.
Printed No. A. 453.

No. 450. By Mr. FULLER.—Amending section 10, Transportation Corporations Law, by providing that three or more persons, instead of seven or more, as at present, may become a navigation corporation; permitting the incorporation of barge companies, and prohibiting any joint stock association from carrying on a freight and transportation business to control in any way any stock issued by a navigation company, domestic or foreign. (Same as S. 345.)

To Commerce and Navigation Com.
Printed No. A. 454.

No. 451. By Mr. HENSCHEL.—Amending section 430, Election Law, requiring the board of canvassers of each county of New York city to notify each candidate on the official ballot, at least 48 hours in advance, of the time and place of the meeting of the board to make a canvass. Notice of any adjournment must also be given.

To Judiciary Com.
Printed No. A. 455.

No. 452. By Mr. LANGHORST.—Amending section 1756, Code of Civil Procedure, by permitting an action for divorce where either party to the marriage contract has deserted the other and has remained away for 10 years.

To Codes Com.
Printed No. A. 456.

No. 453. By Mr. NELSON.—Amending section 290, State Charities Law, by eliminating from the description of "Dispensary" any institution furnishing medical or surgical treatment for a compensation determined without reference to the value of the thing furnished. (Same as S. 705.)

To Social Welfare Com.
Printed No. A. 457.

No. 454. By Mr. QUICK.—Adding new subdivision 8 to section 46, Prison Law, authorizing the State Prisons Commission to close any county jail, city jail or police station, town or village lockup, which is unsanitary or inadequate to provide for the separation and classification of prisoners required by law. The local authorities are to be directed to show cause why such action should not be taken. (Same as S. 337.)

Mar. 25. Approved, chapter 84.
Printed No. A. 664.

No. 646. By Mr. MALONE.—Amending subdivision 2, section 8, Liquor Tax Law, relative to certificates for restaurants, by providing that the holder of such certificate may surrender it at any time for cancellation and receive in exchange a new certificate. Such certificate holder serving meals not in connection with a hotel business may

sell light domestic wines or beer in the bottle to be drunk with a meal. (Same as S. 367.)
To Excise Com.
Printed No. A. 665.

No. 647. By Mr. MALONE.—Amending subdivision 1, section 8, and adding new section 18-a to the Liquor Tax Law, by increasing from $1,200 to $1.500 the excise tax on hotels, if in a city or borough of 1,500,000 or more; from $975 to $1,-218.75 in a city or borough from 500,000 to 1,-500,000; from $750 to $937.50 in a city or borough from 50,000 to 500,000; from $525 to $656.50 in a city or village of between 10,000 to 50,000; from $450 to $562.50 in a city or village of from 5,000 to 10,000 inhabitants; from $300 to $375 in a village of 1,200 to 5,000; elsewhere the tax is to be $177.50 instead of $150. The words "hotel certificate" must be stamped across the face of a certificate permitting a hotel to traffic in liquors. (Same as S. 369.)
To Excise Com.
Printed No. A. 666.

No. 648. By Mr. MALONE.—Amending subdivision 8, section 15, and adding new subdivision 8, section 21, and amending subdivision 7, section 36, Liquor Tax Law, relative to the conviction of any person for the violation of section 1146 or any section under article 88 of the Penal Law, who has been a holder of a liquor tax certificate issued for the same premises or his agent, when the crime was committed, and had ceased to be such holder when convicted. (Same as S. 365.)
To Excise Com.
Printed No. A. 667.

No. 649. By Mr. MALONE.—Adding new section 13-a, Liquor Tax Law, relative to the issuance to or withdrawal from designated persons of liquor tax certificates in towns affected by local option vote. (Same as S. 368.)
To Excise Com.
Printed No. A. 668.

No. 650. By Mr. MALONE.—Amending subdivision 9, section 8, Liquor Tax Law, relative to traffic of liquors under subdivision 1, by providing that the notice stating that such traffic of liquors is abandoned at the premises named, shall also describe some other premises in which it is intended to carry on such traffic, not nearer than 300 feet to any building in which liquor traffic is then carried on; and amending sections 25 and 26, relative to change of place of traffic. (Same as S. 366.)
To Excise Com.
Printed No. A. 669.

No. 651. By Mr. MALONE.—Amending section 7, Liquor Tax Law, by authorizing the Commissioner of Excise to appoint at least sixty special agents and not more than sixty additional special agents, or a total of 120, and appropriating $120.000. (Same as S. 364.)
To Ways and Means Com.
Printed No. A. 670.

No. 652. By Mr. MALONE.—Amending section 33, Liquor Tax Law, relative to warrant for search for seizure and forfeiture of liquors kept for unlawful traffic. The warrant must be executed within five days after the issuance thereof, instead of ten days, as at present. If warrant and notice is returnable on the day of issue, it must be served at least two hours before the hour at which it is returnable; in other cases at least two days before the day on which it is returnable. (Same as S. 363.)
To Excise Com.
Printed No. A. 671.

No. 653. By Mr. PHILLIPS.—Amending subdivision 14, section 3, Rochester city charter, by extending the boundaries of the fourteenth ward (Same as S. 497.)

RESOLUTIONS

IN SENATE.

JANUARY 7, 1914.

By Mr. POLLOCK.— Whereas, It appears that a firm of private bankers in the city of New York has suspended payment, having deposits aggregating approximately two and one-half million dollars with many depositors residents of this State and no information is ascertainable as to whether said private bankers are solvent, and

Whereas, It appears that the laws of this State at present fail to regulate and supervise said private bankers, they having given given security to the State Comptroller in the sum of $100,000, and by reason of such omission in the law private bankers may transact the banking business without due safeguards to the rights of the public and the depositors, and

Whereas, The public interests demand appropriate legislation upon this subject, and as the matters involved are complex and important,

Now, therefore, In order that full and complete information may be obtained as to all the facts relating to the subject and so that the Legislature can take action thereon,

Be it Resolved, That the Senate Committee on Banks, one of the standing committees of the Senate, be authorized and directed forthwith to proceed to investigate and examine into the private banking business conducted in this State, the methods employed by private bankers in obtaining deposits and the investment of such deposits received by them; the nature, if any, of the security existing for the investments of said private banks of their deposits in this State and elsewhere, and all other matters relating to such private bankers, their methods of carrying on business and liquidating such business whether solvent or insolvent, including the laws of this State and of the United States regulating such liquidation for the purpose or reporting to the Legislature such a revision of the law as may be necessary to remedy conditions.

Be it further Resolved, That such committee be authorized to sit during the recess of the Legislature and outside of the city of Albany and be hereby authorized and empowered to subpœna and enforce the attendance of witnesses, including public officers and employees, and to require production of books and papers and to administer oaths.

Adopted.

JANUARY 19, 1914.

By Mr. MURTAUGH, fixing time for adjournment of Legislature at 12 noon, March 27, 1914.

Referred to Judiciary Com.

Feb. 5. Reported favorably. Tabled.

Feb. 10. Adopted.

Feb. 13. In Assembly. To Ways and Means Com.

Feb. 26. Reported and adopted.

FEBRUARY 2, 1914.

By Mr. BLAUVELT.— Urging Congress to enact legislation relative to alien insane. (For full text see identical resolution by Mr. A. E. Smith, introduced February 2.)

Referred to Judiciary Com.

Feb. 17. Reported amended as follows and adopted as amended:

Whereas, It appears from the message of the Governor to the Legislature under date of February 2, 1914, that there were, on September 30, 1912, 9,241 insane aliens in the civil hospitals of this State comprising 29.2 per centum of the total hospital population, the net cost of whom to the State for the year 1912 was upwards of two million five hundred thousand dollars ($2,500,000) and there is reason to believe that the number of the alien insane and the net cost thereof have increased since said date, and

Whereas, The immigration of aliens their acquisition of a residence within this State, and the deportation of insane aliens therefrom are subjects over which this State has no control, and

Whereas, It is believed that the provisions of the federal statutes on the subjects of the admission of aliens and the deportation and repatriation of insane aliens are inadequate to effectively protect the state and nation, and

Whereas, The national government having assumed legislative responsibility for the alien should be willing to assume the financial responsibility for the care, maintenance and removal from this country of the alien insane.

Resolved (if the Assembly concur), that the Legislature of this State hereby urges upon Congress, in accordance with the suggestions contained in the Governor's message, the enactment of appropriate legislation to accomplish the purposes aforementioned and to that end

1. To provide that the maintenance of the alien insane be a national and not a State charge, but, if the nation will not assume this just and proper charge, to reimburse the State for the cost of the care and maintenance of the deportable alien insane from the date of commitment to a hospital for the insane to the date of deportation, or until the date of discharge or death in case of any deportable insane aliens who for any cause it is found impossible or deemed inadvisable to deport.

2. To appropriate monies sufficient to insure the adequate mental examination of all arriving immigrants, the reimbursement to the State for the care and maintenance of the deportable alien insane and the efficient deportation thereof.

To amend the Immigration Act:

3. To make mandatory the exclusion of all aliens who are mentally defective, or are afflicted with chronic alcoholism, or exhibit marked psychopathic tendencies or have been insane at any previous time.

4. To provide that each immigrant examined

shall receive, at the port of entry, a certificate from the medical officer or officers who examined him that no mental or physical defects were found, or that those found had been duly certified.

5. To provide that physicians of the U. S. Public Health Service of special training in the diagnosis of mental diseases and defects, should be detailed for duty in sufficient numbers at all times at all the ports of entry.

6. To provide that such physicians should at all times have all necessary facilities, including the exclusive services of interpreters, should be responsible for the mental examination of immigrants and should be required to make recommendations from time to time as to facilities needed.

7. To provide that there be imposed upon a transportation company a fine of $200 for bringing to this country any alien whose present or previous insanity mental defect, chronic alcoholism or psychopathic tendency could have been detected by a competent medical examination prior to his embarkation.

8. To provide for a special study by a board of medical experts of the methods employed for the detection of mental diseases among immigrants, which board shall report such changes therein as to it shall appear to be desirable.

9. To provide that when the chief executive officer of an institution certifies that an insane alien is a public charge therein it shall be the duty of the nearest Immigration Commissioner to make an investigation as soon as possible, in order to determine if such alien is deportable, and to secure the data necessary to verify his landing.

10. To provide for the deportation of any alien who within five years after entry into this country becomes insane, unless it can be shown that the causes of the alien's insanity arose solely subsequent to his landing.

11. To provide that the extension of the deportation period shall also permit of the deportation of the insane alien whenever proceedings for deportation are commenced within the statutory period.

12. To make it mandatory that the immigration authorities order the insane alien who is deported to be accompanied to his final destination by a suitable attendant in each case in which it is certified by a medical officer of the United States Public Health Service or by the chief medical officer of the institution in which such alien has been confined that the alien's condition requires special care and attention.

13. To provide that the testimony of competent alienists as to the mental condition of the alien be taken as sufficient authority for the issuance of a federal warrant of deportation if other conditions admit.

14. To provide that it shall be a misdemeanor punishable by a fine for a transportation company to refuse to sell tickets for or to receive on board, guard safely or return any insane alien who is or has been in an institution for the insane and who desires to be carried to the country of which he is a citizen, provided

1. That all the expenses of the return of such alien at customary rates, be borne by such alien, his friends or the authorities charged with his care.

2. That it be certified by the chief medical officer of such institution for the insane that such alien is in condition to travel with safety to others.

3. That it be certified by the same official that such alien is in condition to travel alone with safety to himself or is provided with a suitable attendant, and

4. That such alien is free from any quarantinable disease.

Resolved (if the Assembly concur), That the clerks of the Senate and Assembly send a certified copy of this resolution to the president of the United States, the Secretary of Commerce and Labor of the United States, the chairmen of the appropriate committees of the Senate and House of Representatives of the United States and each Senator and Representative in Congress from the State of New York.

By Mr. BROWN.— Providing for the appointment of a joint committee of the Senate and Assembly to investigate repair work on the Capitol, the charge being made that $1,500,000 has been spent unlawfully.

Laid on table.

Feb. 17. Referred to Finance Com.

MARCH 3, 1914.

By Mr. MURTAUGH.—Urging Federal legislation to promote the development of radium. (For full text see identical resolution offered in Assembly by Mr. A. E. Smith on March 3.)

Adopted.

MARCH 26, 1914.

By Mr. MURTAUGH.— Resolved (if the Assembly concur), That a committee is hereby created consisting of five Senators to be appointed by the President of the Senate for the following purposes:

To inquire into all matters pertaining to the organization of the state highway department; to make a study of the location and routes of state and county roads and highways, and recommend any readjustment deemed necessary or desirable therein; to inquire into the types of construction of highways and bridges completed, under construction or contemplated; to inquire into the problem of the construction and maintenance of bridges in connection with state and county highways and roads; to inquire into the production of materials for highway construction and the practicability of using prison labor in the production of paving brick, crushed stone and other material, and if the construction of a plant or plants be deemed advisable, to recommend the location thereof; to inquire into the organization of highway departments of other states and countries, and the types of construction, methods employed, materials used and expense incurred in the construction and maintenance of highways in other states and countries, and for such purposes such committee is authorized to travel outside of the state and hold meetings at such places as it may determine; to inquire into any other matter which, in the opinion of the committee, may be of value in solving the problem of de-

partment organization or the location, construction and maintenance of highways within the state; to recommend such changes in department organization, or methods or laws which in the opinion of the committee will produce the best results in the expenditure of funds for highway construction; to report the result of its inquiries to the Legislature of nineteen hundred and fifteen on or before February first together with such proposed legislative measures as the committee may deem advisable.

Such committee may employ a counsel, secretary and such engineers, experts or other assistants as may be required to enable it to perform its duties. Such committee shall have the power to subpoena witnesses, take testimony, compel the production of books and papers and otherwise have all the powers of a legislative committee.

Resolved (if the Assembly concur), That the expenses of such committee not exceeding thirty thousand dollars ($30,000), be payable from the contingent fund of the Legislature upon the order of the chairman of such committee.

Adopted.

In Assembly. Referred to Ways and Means Com.

IN ASSEMBLY.

By Mr. MURRAY.— Whereas, From investigations heretofore conducted in judicial and other proceedings it appears that grave irregularities have but recently existed in the conduct of the business of certain departments of the State government; that the provisions of existing laws relative to the collection of and accounting for political campaign funds have been ignored and that such laws are inadequate to properly protect citizens transacting business with the State and its political subdivisions; now, therefore, for the purpose of enabling the Legislature to prepare, consider and enact appropriate legislation to correct the abuses which may exist in the administration of the several State departments and prevent their recurrence and guarantee adequate protection to the people of the State in the transaction of public business and in the exercise of their political rights, be it

Resolved (if the Senate concur), That a joint committee of the Legislature be constituted, consisting of three Senators, to be appointed by the President of the Senate, and five members of the Assembly, to be appointed by the Speaker of the Assembly, and that said committee be and it hereby is directed to investigate and inquire into the conditions herebefore referred to and all matters pertaining thereto and to report its recommendations to the Legislature on or before the 20th day of March, 1914, and be it further

Resolved, That such committee be authorized and empowered to sit outside of the city of Albany, and be authorized and empowered to subpœna and enforce the attendance of witnesses, including public officers and employees, and to require the production of books and papers, including public records and documents, to employ counsel, stenographic assistants and such other employees as may be necessary for the purposes above set forth; and be it further

Resolved, That the actual and necessary expenses of the committee in carrying out the provisions of this resolution, not exceeding the sum of $10,000, be paid from the fund appropriated for the contingent expenses of the Legislature upon the certificate of the chairman of the committee.

Referred to the Committee on Ways and Means.

By Mr. SCHAAP.— Whereas, Revelations as to the manner in which State moneys have been expended and State contracts have been made in the Highway and other departments of the State, have shocked the public conscience, and whereas, it is currently reported that the elected head of an important State department has been absent from his post for many months without adequate explanation, and other reports are rife as to dishonesty and inefficiency in various branches of the State government, and

Whereas, it is necessary to the welfare of the State not only that its affairs be honestly and efficiently conducted, but that there be general public confidence that they are being so conducted, and

Whereas, There is general confidence that the investigation which was made by Mr. John A. able than it did, if it had not been abruptly Hennessy was carried on without fear or favor, and would have led to results even more valuterminated, while, on the other hand, the several inquiries which have since been instituted have failed to enlist public sympathy or confidence because of a general feeling that all have involved personal or political ambitions or are being conducted with an eye to partisan advantage rather than the public good, and it is desirable that they be superseded by an investigating body which shall have power throughout the State, in all the counties thereof, and which shall be so constituted as to insure a non-partisan and thorough investigation which shall spare no one on account of high party or political position, and which shall command public confidence that it is not being conducted for the political aggrandizement of any person, or to further any one's political ambitions, be it

Resolved, That

of the Assembly be appointed by the Speaker to conduct a thorough and non-partisan investigation into the Highway Department and all other departments of the State government, including those in charge of elected officials; that such committee elect its own chairman; that it be instructed to procure the services of John A. Hennessy as an expert adviser and prober, and that it have power to employ counsel and necessary assistants, to hold its sessions in any part of the State, and to compel the attendance of witnesses and the production of books and papers, and in all respects have all the powers of a committee of the Assembly.

Referred to Ways and Means Committee.

Feb. 3. Motion to discharge committee lost, 22 in favor and 95 against.

By Mr. SULZER.— Resolved, That the Speaker be, and he hereby is, authorized and directed to appoint a committee of seven members of the Assembly, to investigate the financial methods and conditions of the State, for the purpose of instituting reforms and economies; and that said committee be, and it hereby is, authorized and empowered to examine into the administration of all societies, commissions, committees, institutions, and departments of the State, which are under State control, or which are supported, directly, or indirectly, in whole or in part, by State moneys; and the management, supervision, and regulation of the same; and especially concerning contracts, and the awarding of same; and contracts for supplies, for work, for buildings, for repairs, for construction, and for improvements; and the conduct generally of the business of all State institutions and departments; and the said committee is hereby further directed and empowered to investigate violations of law in connection with State matters; and especially in relation to campaign gifts, or contributions, by individuals or to individuals; or by committees, or to committees, directly or indirectly, and violations of law concerning corrupt practices in connection with the

elective franchise; and the said committee is hereby directed to report to the Assembly, with all convenient speed, such recommendations with bills, as the said committee shall deem advisable, for the purpose of enacting laws to correct existing abuses; and be it further

Resolved, That the said committee be, and it hereby is, authorized and empowered to sit, and take testimony, in Albany, or in any part of the State; and it is hereby further authorized and empowered to subpoena and compel the attendance of witnesses, and the production of books and papers including public records or documents, pertaining to any matter herein contained, or to the administration of any society, commission, institution, committee, or State department; or concerning any matter of public moment in the interest of justice, and for the general welfare; and the said committee is hereby further authorized and empowered to administer oaths; to employ counsel; a secretary; stenographers; and such investigators, accountants, and other employees, as may be necessary for the purpose of carrying out in good faith this investigation; and the necessary expenses incident thereto shall be paid from any money appropriated for the contingent expenses of the Assembly, by the State Treasurer, upon the warrant of the State Comptroller, on vouchers duly certified by the chairman of the said committee.

Referred to Ways and Means Committee.

Resolved by Mr. SUFRIN.— That the Assembly respectfully request that the Department of Education of the city of New York, investigate the question of the feasibility of increasing the number of hours of the regular school day, and lengthening the regular yearly school term, now prevailing in the elementary schools of the city of New York.

Laid upon the table.

JANUARY 26, 1914.

By Mr. NELSON.— Whereas, there has been found to exist gross irregularity in the Highways Department of the State of New York and

Whereas, Several resolutions have been introduced in this Assembly calling for an investigation of said Highways Department, and

Whereas, It has developed that the Hon. Charles S. Whitman, district attorney of the county of New York, has already secured indictments and has evidence in his office implicating contractors residing in other counties of the State of New York, and

Whereas, The Hon. Charles S. Whitman, district attorney of the county of New York, has been refused the necessary authority to allow him or his assistants to prosecute in the other counties of the State of New York, and

Whereas, The people of the State of New York have confidence in the said Charles S. Whitman, and

Whereas, The expense necessary for any new man to secure the necessary evidence now in the possession of the district attorney of New York county would be a waste of money, and

Whereas, The people of the State of New York desire a non-partisan investigation and not a political whitewashing, it is

Resolved, That this Assembly does hereby secure the services of the Hon. Charles S. Whitman, or one of his assistants, as counsel to any Committee appointed by this Assembly to investigate the Highways Department of the State of New York.

Referred to Ways and Means Committee.

By Mr. MARTIN.— Resolved, That the Assembly hereby requests the public service commission of the second district to furnish to the Assembly, as speedily as possible the following information respecting the Westchester Lighting Company:

1. The capitalization of such corporation.
2. Its bonded or other indebtedness.
3. The amount of its surplus.
4. The dividends declared during the last calendar year.
5. The salaries paid to its principal officers.
6. The rates of charges for the consumption of gas and electricity in the cities, villages and towns where it operates.
7. Such other facts respecting its financial condition as the commission may deem useful to enable the Legislature to ascertain the reasonableness of its rates.

Resolved, That the Clerk of the Assembly is hereby directed to promptly transmit a certified copy of this resolution to the secretary of the public service commission of the second district.

Adopted.

By Mr. SUFRIN.— Whereas, On the 3d day of May, 1913, the Assembly of the State of New York concurred in a resolution adopted by the Senate creating a general committee consisting of two members of the Senate to be appointed by the President of the Senate and three members of the Assembly to be appointed by the Speaker of the Assembly, to investigate and examine into telephone, telegraph and other form of electrical communication, the ownership and corporate control of franchises for furnishing the same, the ownership, cost of operation and administration of affairs of corporations operating such franchises and other matters in relation to telegraph and telephone service throughout the State and especially in the city of New York, and

Whereas, Many citizens and associations of citizens and taxpayers are interested in the determination of the advisability of the telephone companies in the city of New York being compelled to install slot machines attached to their telephonic instruments on the written request of a subscriber and in particular in installing such slot machines in apartment houses on the written request of the owner of such houses;

Therefore Be it Resolved, If the Senate concur, that the powers of such committee aforesaid be enlarged and that they be instructed to make inquiry as to the advisability of the installation by the companies operating telephone lines in the city of New York of slot machines attached to

their telephonic instruments on the written request of a subscriber and in particular in installing such slot machines in apartment houses on the written request of the owner of such houses.

Referred to Electricity, Gas and Water Supply Committee.

By Mr. CRISTMAN.— Resolved, That eight members of the Assembly, to be appointed by the Speaker of the Assembly, are hereby constituted and appointed an Assembly Legislative Committee, to investigate as speedily as possible, the State Highway Department, its organization and system, and all waste, extravagance, corruption and corrupt practices which have been permitted, practiced or which exist in the administration of that department and to also investigate such other State departments as to said Committee may seem advisable, to the end that such remedial legislation may be enacted or change in the conduct of said Highway Department and other departments and of the public business may be made as will prevent a recurrence of any of the abuses or evils disclosed, and that said Committee make its report and recommendations to the Assembly.

The Committee shall elect its Chairman and vice-chairman. It shall have power to compel the attendance of witnesses and the production of books and papers, to employ counsel, stenographers and all necessary clerical assistants, to sit anywhere in the State of New York, and shall have all other powers usual or necessary in cases of legislative committees, including the adoption of rules for the conduct of its proceedings.

The actual and necessary expense of the committee in carrying out the provisions of this resolution, not to exceed the sum of twenty-five thousand dollars, shall be paid from the legislative contingent fund, upon the certificate of the chairman and vice-chairman of said Committee and the Clerk of the Assembly.

Referred to Ways and Means Committee.

Feb. 5. Reported favorably. Amended to read as follows:

Whereas, The administration of the highway department since the abolition of the Hughes nonpartisan highway commission has been marked by inefficiency, waste and corruption, and

Whereas, The losses to the State in this department have thus far been confined to the expenditure of the first fifty million dollars, and the State is about to enter upon the expenditure of the second fifty million;

Resolved, That a Committee of eight members of the Assembly, to be appointed by the Speaker of the Assembly, are hereby constituted and appointed an Assembly Legislative committee to collate as speedily as possible the proofs of such inefficiency, waste and corruption that have already been taken and to make such further and complete investigation of the organization and administration of the highway department, and the construction and maintenance of highways and all acts of any and all persons or corporations in connection with said highway department, its organization, expenditure of money and all details of administration of highway matters, as to the committee shall seem necessary and proper to fully present to the Assembly, the true condition of the administration thereof, since the creation of said department, to the end that such remedial legislation may be enacted for a change in the conduct, reorganization and management of said highway department, and the laws relating to the construction and maintenance of highways as will prevent a continuation of such waste and loss to the State in the expenditure of the second appropriation of fifty million dollars. The committee may also, if the public interest requires, investigate any other departments of the State. The committee shall report to the Assembly at least three weeks prior to the final adjournment.

The committee shall elect its chairman and vice-chairman and shall sit without as well as within the city of Albany. It shall have the power to compel the attendance of witnesses, and the production of books and papers, administer oaths, to employ counsel, stenographers, and all necessary assistants, and shall have all the power usual and necessary for legislative committees.

The actual and necessary expenses of this committee, in carrying out the provisions of this resolution, shall be paid as provided by law.

Feb. 9. Adopted.

Speaker Sweet appointed as members of the committee: Messrs. John L. Sullivan of Chautauqua (chairman); Maier of Seneca, Burlingame of Kings, S. A. Jones of Chenango, Cristman of Herkimer, Reps.; A. E. Smith of New York and Brewster of Steuben, Dems.; and Schaap of New York, Prog.

FEBRUARY 2, 1914.

By Mr. HORTON.— Whereas, There is a wide-spread demand for greater efficiency and economy in all departments of the State Government in response to which demand investigations are now being made in some of said departments and various resolutions have been introduced in this House for further investigations, and

Whereas, There is the same necessity for greater efficiency and economy in legislative affairs as there is in other departments of the State government;

Therefore, Be it Resolved (if the Senate concur), That the Committees on Judiciary of the Senate and Assembly are hereby directed to examine into the affairs of the Legislature, including the number, duties and compensation of legislative employees, the printing of legislative bills, documents and reports, expenses for stationery, furniture and other supplies, postage, expressage or other shipment of legislative bills, documents, books and reports, the expenses of regular and special committees, and all other regular and contingent expenses of the Legislature, together with the methods of accounting for and auditing the same, and that said committees are hereby directed, after such examination, to report its findings to the Legislature with its recommendations as to what changes, if any, should be made in the interest of efficiency and economy in the number, duties and compensation of the officers and employees of the Legislature, as to the most efficient and economical methods of printing legislative bills, documents and reports and the best means of curtailing legislative expenses and accounting for and auditing the same, and that the

said report and recommendations be made during the regular session of 1914.

Referred to the Judiciary Committee.

By Mr. SCHEIDEMANN.—Whereas, There has been considerable complaint that the Public Service Commission for the First District has been grossly discriminating in its treatment of the people of the Boroughs of Brooklyn and Queens; and

Whereas, The Allied Boards of Trade and Taxpayers' Association of Brooklyn has presented to the Governor and to the Members of the Senate and of the Assembly a petition for an investigation of the Public Service Commission, and

Whereas, The Public Service Commission of the First District was created for the purpose of regulating existing transit corporations and laying out and providing for the construction of additional transit lines, to the end that the transportation evils from which the community had so long suffered might be remedied, and

Whereas, Transit conditions through the city, and particularly in the borough of Brooklyn, are today worse than they were before the creation of the commission; and

Whereas, In the laying out of the new lines, it was plainly the duty of the Public Service Commission to relieve the thickly-congested sections of the city first, and thereafter to extend the lines as the growth of the city warranted, and

Whereas, In the thickly-populated Eastern District of the borough of Brooklyn, where over 1,000,000 of the 1,800,000 population of the borough reside, very little transit relief has been planned, and no contracts let, nor work begun, and

Whereas, After the lines were laid out in sections of the city which best served the interests of real estate owners and promoters, the Public Service Commission then turned their attention to the preparation of what is called the "dual" subway contracts, which agitated the whole city about a year ago, and

Whereas, The Public Service Commission prevented public bidding on many of the contracts by requiring prohibitive bonds to be given by the bidders and by a secret understanding by some one in power with the various surety companies that the latter refrain from going on the bonds of any except the favored contractors, or their "dummies," and

Whereas, When the bids of these favored contractors were accepted by this unfair and unlawful means, the contracts were, in some instances, sold or assigned to other contractors, while the present contractors, who are building the subways, are making hundreds of thousands of dollars in profits; and

Whereas, The contractors who are building the subways would have been able to bid a much smaller sum for the same contracts than those who were favored as above, had they not been so handicapped; and

Whereas, In the letting of the contracts for the construction of the lines laid out under the "dual" system instead of awarding the contract for those parts of the lines which would require the longest time to construct, the Public Service Commission has awarded the contracts for those parts of the lines which will require the less time to build but which will be practically useless until the completion of the more difficult parts requiring the longer time to complete; and

Whereas, This will entail a great loss to the city in having parts of the lines constructed and lying idle; and

Whereas, No contracts have been as yet let for the construction of the three tunnels under the East river, which will connect the Brooklyn system with Manhattan, despite the fact that the Lexington avenue route above 53rd street is more than 60 per cent finished, one section of it having been actually finished nearly a year ago, while the contract for the section from 42nd street to 53rd street (which will connect it with the Fourth avenue leg of the present system) has not as yet been let; and

Whereas, The city has already provided for construction of the "dual" system to the extent of over $93,000,000, or almost one-half of the amount that the city is to contribute; and

Whereas, Since the "dual" contracts were signed the Public Service Commission in boroughs other than Brooklyn have let contracts amounting to $23,000,000, while in Brooklyn, the second largest borough of the city, nothing has been done under the "dual" system except the letting of the contract for the elevating of the tracks on New Utrecht avenue, involving an amount of a little over $1,600,000; and

Whereas, Competitive bidding is precluded in the letting of subway contracts; and

Whereas, A certain contract was let to favored contractors and assigned by them to a corporation with $100,000 capital, and with only $500 cash paid in (thus releasing the individual contractors from their bond); and

Whereas, A portion of the stock of said corporation was owned and controlled by another corporation in which the father-in-law of the former Chairman of the Public Service Commission who signed the contracts, was one of the principal stockholders and directors; and

Whereas, The Public Service Commission is now preparing plans for three tunnels to be built in Brooklyn which may (if proper action is not taken to prevent it) be let to favored contractors at a loss to the people of millions of dollars; and

Whereas, The passengers carried in 1913 numbered 111,000,000 more than in 1907 when the Public Service Commission came into existence, notwithstanding the fact that there are now less than 100 cars more in operation on all the transit lines (elevated and surface combined) in the borough of Brooklyn than there were in 1907; although the population increased in the meantime about 400,000; and

Whereas, The people of Brooklyn are compelled to stand up in the elevated cars in Brooklyn during the entire twenty-four hours of the day; and the same condition is true of the surface lines, by the cutting off of cars and the reduction in the number of cars; and

Whereas, The "car-ahead" order has again become a common, public nuisance; and

Whereas, The lives of the traveling public are endangered through the employment of new motormen without proper training, and through violation of the Labor Law in compelling men to complete a day's work in fifteen or sixteen hours instead of twelve hours, without any objection

on the part of the Public Service Commission; and

Whereas, The cost of maintenance of the Public Service Commission to the people of the city and state since its creation has been over $8,000,000, which in all probability will increase (as will be evidenced by the fact that only a day or two ago the Chief Engineer's salary was raised by the Public Service Commission to $20,000 per year); and

Whereas, The congested Eastern District section of the borough of Brooklyn is in immediate need of relief, and proper contracts should be prepared, advertised and let and the work begun without further delay; and

Whereas, There is reason to believe that the Public Service Commission intends to abandon the Eastern District Fourteenth Street subway; be it therefore

Resolved (if the Senate concur), That a joint committee be appointed consisting of three members of the Senate and five members of the Assembly, which committee shall proceed to investigate and examine into the conduct of the Public Service Commission and the various bureaus thereof, with a view to determining whether or not this Commission is serving the purposes for which it was created, and if the corporations for the control of which it was created have more than one former or present employee on the Commission; and any other phase of the transportation problem deemed by the Committee to be proper for the purpose of drafting and reporting to the present legislature such a revision of the laws relating to public service corporations in this state as said committee may deem proper; and be it further

Resolved, That the said committee be and it hereby is authorized and empowered to require and enforce the attendance of witnesses, and the production of books and papers, to administer oaths, and to employ counsel, stenographers, clerks and such other employees as may be necessary for the purposes of this investigation. And a sum not exceeding fifty thousand dollars ($50,000) is hereby appropriated out of any money in the treasury, not otherwise appropriated for the purpose of said committee.

Referred to Ways and Means Committee.

By Mr. PHILLIPS.— Whereas, There is a growing sense of dissatisfaction with the condition of the jury system throughout the state; and

Whereas, The greatest burden of litigation falls on the city of New York, and particularly on the county of New York; and

Whereas, Escape or exemption by law from jury service is greatest in the city, and particularly in the county of New York; and

Whereas, Various remedies have been proposed including the abolition of many present exemptions; the abolition of coroners and other minor juries; the reduction of juries in civil cases from twelve to six, etc.

Be it Resolved (if the Senate concur), That the Committee on Judiciary of the Senate and Assembly or sub-committees thereof, be and hereby are directed to proceed to the city of New York and hold there and elsewhere in the state public hearings on these questions and report their conclusions with bills embodying the same to the legislature at their earliest convenience.

Referred to Ways and Means Committee.

Feb. 20. Reported with amendment by adding, "Be it further Resolved, That the actual and necessary expenses of the Committee be paid as provided by law."

Feb. 23. Adopted.

Feb. 26. In Senate. To Judiciary Com.

By Mr. SUFRIN.—Whereas, There is now pending in the House of Representatives a certain immigration bill known as the "Burnett Bill," which amongst its provisions prescribes that all aliens desiring to enter this country must undergo a literacy test; and

Whereas, The passing of this bill or any other bill calling for any provision as stated above would work untold hardship and suffering upon poor immigrants who desire to enter this country, who for various discriminations were compelled to leave their native lands; and

Whereas, Past immigration records of our country have clearly shown that all immigrants who have entered this country without any such test whatsoever have immediately acclimated themselves to the country's needs and conditions and have become its best citizens and have used their best efforts and brains and power towards the upbuilding and development of our country's resources; and

Whereas, It is the belief of the great mass of people of this country and of this state that no restrictions should be placed upon any person desiring to enter this country, who is of good moral character and physical and mental health;

Be it therefore Resolved (by the Assembly), That the passage of the "Burnett Bill" would be contrary to all the fundamental principles of constitutional freedom and liberty; and that such bill should not be passed by the House of Representatives and that every representative from the Empire state be urged to use his best efforts to defeat the passage of this bill.

Referred to Judiciary Committee.

Feb. 3. Committee discharged. Resolution adopted.

By Mr. A. E. SMITH.— Whereas, It appears from the message of the governor, to the legislature under date of February 2, 1914, that there are now in the state hospitals over nine thousand alien insane constituting twenty-five per cent of the alien insane of the United States and representing a total burden upon the present and future taxpayers of the state of more than twenty-five million dollars; and

Whereas, The immigration of aliens, their acquisition of a residence within the state, and the deportation of alien insane is a subject over which the state has no control; and

Whereas, It is believed that the provisions of the federal statutes on the subject of the deportation of alien insane are inadequate to effectively protect the state and nation; and

Whereas, The national government having assumed legislative responsibility for the alien, should be willing to assume financial responsibility for the maintenance and deportation of alien insane.

Resolved (if the Senate concur), That the legislature of this state hereby urges upon congress, in accordance with the suggestions contained in the governor's message, the enactment of appropriate legislation to accomplish the foregoing purposes:

1. A more thorough supervision of the mental condition of all immigrants at ports of entry;

2. The maintenance of the alien insane be a national and not a state charge;

3. The period within which an insane alien be deported be extended from three to five years;

4. If it be deemed just to retain the provision prohibiting deportation except for cause existing prior to landing, the burden of proof be shifted from the state to the insane alien and his friends;

5. Transportation companies be compelled to examine alien applicants for passage to this country, and report upon their mental condition;

6. Proper punishments be provided for transportation companies which refuse to provide passage for an alien desiring to return to his native country from a state institution, when the institution has certified that the alien is competent to travel alone;

7. When officers of a public institution certify that an alien is a public charge therein it be the duty of the nearest immigration commissioner to make an investigation to determine if such alien is deportable;

8. The United States to provide a suitable attendant to accompany to his destination a deportable alien who is mentally unfit to travel alone.

Resolved (if the Senate concur), That a copy of the governor's message to the legislature of February 2, 1914, in relation to the alien insane be attached to and made a part of this resolution.

Resolved (if the Senate concur), That the clerks of the Senate and Assembly be directed to promptly transmit a certified copy of this resolution, including the governor's message as attached and made a part thereof, to the clerks of the Senate and House of Representatives of the Congress of the United States.

Laid upon the table.

By Mr. DU BOIS.— Whereas, Haverstraw Bay in the Hudson river is obstructed by a narrow bar rendering the upper Hudson difficult of access to vessels of deep draught, causing costly delays and subjecting large vessels to the risk of grounding; and

Whereas, Prompt action to remedy this condition is necessary because of plans to utilize dockage along the upper Hudson for terminals to handle freight by way of the Panama canal; and

Whereas, One of the largest docks in the United States for the lumber trade is now being built on the Hudson river above Haverstraw for the distribution of shipments of this product by way of the Panama canal from the Pacific coast to points in the east; and

Whereas, It is believed that the cost of dredging a channel sufficient to admit of the passage of vessels of deep draught will not exceed the sum of twenty-five thousand dollars.

Resolved (if the Senate concur), That the legislature urge upon the national government the importance to the commercial interests of the state of unimpeded navigation of the Hudson river by vessels of ocean-going type, and urge upon the national government prompt action to remedy the conditions above referred to so that there may be a clear deep-water channel ready for use at the time of the opening of the Panama canal in January, nineteen hundred and fifteen.

Resolved (if the Senate concur), That a certified copy of this resolution be transmitted by the clerk of the Assembly to the Secretary of War and the chairman of the Committee on Rivers and Harbors of the House of Representatives.

Adopted.

Feb. 4. In Senate. Adopted.

By Mr. B. E. MOORE.— Whereas, The New York Railways Company, at present operating cars on and through 86th street, has been in the habit of operating a certain number of cars to Second avenue only, running east, to the great disadvantage and inconvenience of the people living in the vicinity, and

Whereas, The said company's trackage extends beyond Second avenue to 92d street and Avenue "A," and the said company operates these cars to Second avenue only merely as a matter of economy and advantage to itself without due consideration for the rights of the people; therefore,

Be it Resolved, That the Public Service Commission of the First District is hereby requested to order the said New York Railways Company to operate all their cars without reservation from 86th street and Eighth avenue and through to 92d street and Avenue "A," and

Be it further Resolved, That the Public Service Commission of the First District is further requested to order the said New York Railways Company to effect an arrangement with the Third Avenue R. R. Co., the Second Avenue R. R. and the railroad operating on First avenue, whereby the above-named New York Railways Company may exchange transfers with said lines.

Referred to Com. on Judiciary.

Feb. 23. Adopted.

FEBRUARY 16, 1914.

By Mr. B. E. MOORE.— Whereas, The present method of constructing the highways and the barge canal by contract has resulted in fraud, corruption and waste, and

Whereas, Such fraud, corruption and waste appear to have existed under both Republican and Democratic administrations, and

Whereas, Experience has shown that such fraud, corruption and waste are almost inevitable in the letting of construction contracts involving large sums of money, and

Whereas, It has been generally demonstrated that a system of direct construction by the state largely eliminates fraud, corruption and waste, and insures good wages and conditions of labor,

Resolved (if the Senate concur), That within five days after the passage of this resolution there shall be appointed in the manner hereinafter provided, a commission which shall consist of five persons, whose duty it shall be to formulate and report what it may deem the most expedient plan and the best form of organization to enable the state as soon as possible, to commence the direct construction of the state highways and canals, and to determine the character and amount of construction of both highways and canals to be built during each of the next four years, and the probable expense thereof. Said commission shall submit a full report, including a draft of appro-

priate legislation to carry into effect the recommendations of this commission, if possible to the present legislature; otherwise to the legislature of 1915.

The members of said commission shall serve without compensation, but each shall be entitled to his actual necessary expenses incurred in the performance of his duties under the provisions of this act.

The appointments shall be made as follows:

Three members of such commission shall be appointed by the Governor.

One of the said persons shall be appointed by the President of the Senate from the Senate, and

One of the said persons shall be appointed by the Speaker of the Assembly from the Assembly.

For the purposes of this investigation, the said commission is hereby authorized to send for persons and papers, to administer oaths, and to examine witnesses and papers respecting all matters pertaining to the subjects referred to in the first section of this act, to purchase books and supplies, and to employ all necessary clerical and other assistants within the appropriation therefor. If the said commission shall appoint from its members sub-committees to make inquiry into one or more of the subjects referred to in the first section, said sub-committees shall have the same powers as to sending for persons and papers, administering oaths, and the examination of witnesses and papers as are herein conferred upon the commission.

For this purpose the sum of two thousand dollars ($2,000) or so much thereof as may be necessary, is hereby appropriated.

All the departments of the State of New York are hereby directed to co-operate with the said commission and to render it all proper aid and assistance.

Referred to Ways and Means Committee.

By Mr. GOLDBERG.— Whereas, A bill has been introduced into the Assembly of the State of New York for the purpose of regulating and adjusting telephone charges, and for the purpose of fixing a definite rate for intercommunications between points in the State of New York, and

Whereas, There is great public dissatisfaction with the rates now in force, and

Whereas, In order to meet this dissatisfaction a resolution was adopted by the Assembly calling upon the Public Service Commission of the Second District forthwith to dispose of this all important question, and to express its attitude prior to the convening of the Assembly, and

Whereas, In anticipation of legislative interference, the telephone companies have voluntarily given a ten per cent. (10%) reduction, and

Whereas, A conference was held on January 7th before his honor, Governor Glynn, and

Whereas, After such conference and after such ten per cent. reduction the Public Service Commission of the Second District announced that it would proceed with an appraisal and valuation of telephone properties in New York City, and

Whereas, Such an appraisal and valuation was to form the basis of a new schedule of rates, and

Whereas, Nothing has since been done by the Public Service Commission or by anyone toward the consummation of such a purpose, and

Whereas, the public still are clamoring for a revision and determination of the rates, therefore be it

Resolved, That the Public Service Commission forthwith report to the Assembly what they have done or what steps they have taken toward the making of an appraisal and valuation of the telephone companies' properties and what further steps they propose to take to bring about the reduction of telephone rates to consumers and the regulation of this important question in accordance with the resolution hitherto adopted by the Assembly of the State of New York.

Be it further resolved, That a copy of this resolution be sent forthwith by the Clerk of the Assembly to the Public Service Commission of the Second District.

Laid upon the table.

Feb. 23. Adopted.

The following letter was sent on March 4 by Chairman Martin S. Decker of the Public Service Commission to Speaker Sweet:

HON. THADDEUS S. SWEET, *Speaker of the Assembly, Albany, N. Y.:*

SIR.—On the 28th day of February there was left at the office of this Commission what purports to be a copy of a Resolution introduced on February 16, 1914, by Mr. Goldberg. The copy received by the Commission bears the following heading: "From Legislative Index Pub. Co., Albany, N. Y." This copy has upon it the following: "In Assembly Feb. 22, 1914. Passed."

No certified copy of this Resolution has been received by the Commission, but the Commission being thus appraised of the passage of the Resolution undertakes to make answer as follows:

Omitting the preamble the Resolution reads as follows:

> "Resolved, That the Public Service Commission forthwith report to the Assembly what they have done or what steps they have taken toward the making of an appraisal and valuation of the telephone companies' properties, and what further steps they propose to take to bring about the reduction of telephone rates to consumers and the regulation of this important question in accordance with the resolution hitherto adopted by the Assembly of the state of New York.
>
> "Be it further resolved, That a copy of this resolution be sent forthwith by the Clerk of the Assembly to the Public Service Commission of the Second District."

There have been pending before the Commission various complaints in relation to the rates of the New York Telephone Company service within the city of New York. Case No. 3522 is the complaint of Harrison B. Weil, Case No. 3434 is the complaint of Globe Realty Company, and Case No. 3593 is the complaint of Douglas Robinson, Charles S. Brown Company. These cases, taken up soon after they became at issue upon the filing of answer, were heard in New York City at the following times — May 9 and 23, June 9 and 13, July 11 and 25, November 28, December 22 and 23, 1913 and January 5 and 6, 1914.

Case No. 3772, the complaint of M. H. Winkler, This complaint was filed August 27, 1913, and the

first hearing was held November 24, 1913. Subsequent hearings were held December 22 and 23, 1913 and January 5 and 6, 1914.

Case No. 3828, the complaint of the Postal-Telegraph Cable Company. In this case the complaint was filed September 18, 1913. Hearings were had November 28, December 22 and 23, 1913, and January 5 and 6, 1914.

Case No. 4020, the complaint of the Board of Aldermen of the city of New York. In this case the complaint was received December 4, 1913, and hearings were held December 22 and 23, 1913 and January 5 and 6, 1914.

Case No. 4087, petition of the Merchants Association of New York. In this case the complaint was received January 5, 1914, at a hearing being held in the other cases.

Commencing June 9, 1913, the cases of Harrison B. Weil, Globe Realty Company, and Douglas Robinson, Charles F. Brown Company, were heard together at the several hearings, and with those cases on November 28, 1913, the hearing on the complaint of the Postal-Telegraph Cable Company was combined.

On December 22, 1913, the case of M. H. Winkler was heard with the other cases in which hearings were held on that date, and subsequently the case of Mr. Winkler was heard in connection with the others. On January 5, 1914, the complaint of the Merchants Association of New York was filed at a hearing in the other cases and it became one of the cases on hearing before the Commission.

On January 6, 1914, it was determined at the hearing in New York of that date that in order to progress the various cases in accordance with the requirements of law a valuation of the property devoted to the public service within the city of New York by the New York Telephone Company should be made. At that time the New York Telephone Company offered to and thereupon did reduce its rates upon its standard message service rates ten per cent., the same to be in effect pending the determination by the Commission in these various cases, and the hearings in the various cases were then adjourned pending the necessary preparation of an inventory and appraisal of the properties of the New York Telephone Company in the city of New York with reference to ascertaining the reproduction cost of of the property of the New York Telephone Company in the city of New York and accounting examination of the books of the company with reference to ascertaining the original cost of the property of the company in New York City.

At that time it was carefully and explicitly stated, and was before well known to the parties, that this Commission was without funds in its control to defray the expenses of the appraisal and accounting examination and it was also stated and was well understood that the expenses of such appraisal and accounting would be very large.

The Commission is still without funds necessary to make on behalf of the public the appraisal and accounting examination above specified. The city of New York has not expressed any intention to proceed with an appraisal and accounting examination on behalf of the public nor have any of the parties complainant expressed any such intention. The Legislature of the State of New York has not provided such funds for the use of the Commission. This Commission has before it a proposal on the part of the New York Telephone Company to supply the funds for such appraisal and accounting examination up to $2000,000, the same to be expended under direction of the Commission. The Commission has not yet seen its way clear to accept this unusual proposition as wise policy. The matter is still under consideration.

The Commission desires to say that all of the foregoing proceedings have been consolidated by its order under the following title: "In the matter of the investigation of rates and charges to the public by the New York Telephone Company for telephone service rendered within the city of New York"—the same now being our case No. 4089. There has been no delay whatsoever on the part of the Commission in the progress of these cases so consolidated.

Very respectfully,

MARTIN S. DECKER,
Chairman.

By Mr. FISH.—Whereas, It is conceded by every one that the progress and prosperity of the State is founded on the efforts of the farmer, who provides the sustenance upon which all other classes exist; and

Whereas, It is a growing policy of the legislative bodies of each State and of the National Congress, by appropriate legislation, to conserve the resources of nature and aid in their development, particularly along those lines of effort which are of especial aid to the development of agriculture, notably legislation relating to irrigation, drainage and reforestation; and

Whereas, Such legislation, in order to be effective, should be supplemented, especially in this State, by financial legislation having for its object the opening and extending of opportunities to the farmer to obtain ready money for improving his lands, sowing, planting and harvesting his crops, and marketing such crops; and

Whereas, The rendering of such aid to the farmer by the Legislature will tend to attract to the farm many persons who live in the urban centers of population, thus relieving congestion of population in the cities; and

Whereas, Present banking methods tend to the accumulation of currency in the large banks of cities and away from the rural districts, thus making it difficult as well as costly for the farmer to obtain necessary funds; now therefore

Be it resolved, That it is the sense of this house of the Legislature of the State of New York that proper legislation should be immediately enacted for the following objects and purposes: To provide ample funds in banks in rural communities for loans to farmers; to authorize loans to farmers on long time, upon proper security; to facilitate the procuring of such security by any person engaged in agriculture who is found to be thrifty and honest, though of scanty means; to provide for a low rate of interest on such loans; to provide for postponing to the utmost possible limit the forced sale of property pledged or mortgaged by a farmer to secure a loan which he has failed to repay through circumstances beyond his control; to provide for the proper supervision and safeguarding of securities for farm loans, with a view

to protecting the bank without hampering the borrowing power of the farmer in need.

Laid upon the table.

By Mr. SUFRIN.— Proposed resolution of Assembly in relation to legislation tending toward the improvements of convicts in the State prisons and fitting them for the duties of life.

Whereas, There is a widespread and growing belief that the incarceration in the State prisons of persons convicted of crime should have for its object the moral and physical betterment of each person so confined as well as to safeguard and protect the public from criminal depredations, to the end that such persons may after their discharge be fitted for gaining an honest livelihood, both by inclination and capacity; and

Whereas, Such object may be best accomplished by improving the sanitary conditions of the quarters in the various prisons in which such convicts are confined and also by permitting such convicts to engage in outside manual labor and not confine the labors of such convicts to work in shops at technical trades; and

Whereas, Manual and farm labor is in ready demand, if the laborer is worthy of his hire, without any inquisition into his antecedents or previous history; and

Whereas, Recent experiments have shown the wisdom and practicability of placing the convicts whose terms are about to expire on their honor and allowing them to perform farm labor and other manual labor outside the prison, in the charge of a single officer for each squad, thus improving the health of the prisoners and making them fitted by inclination and ability to engage in the kind of labor which they are most likely to find upon their discharge; and

Whereas, More than four hundred different convicts have been so employed during the past summer without any recorded instance of breach of faith and no material breach of discipline, to their own benefit and to the financial benefit of the State; and

Whereas, The acquisition and operation of farms in connection with prisons, by the employment of convict labor thereon, will reduce to a minimum the cost to the state of supplying such prisons with all products of the farm needed therein; and

Whereas, Recent public events have disclosed the fact that the cells in which the prisoners of the State are confined at Sing Sing, Clinton and Auburn are unsanitary and tend to the deterioration of the occupants, so that they leave the prisons in a worse state, mentally, morally and physically, than when they entered, thus adding a contaminating influencee to the body politic when they are at large;

Therefore be it resolved, That it is the sense of this body of the Legislature that appropriate legislation be immediately enacted providing for the extension of the principle of outside labor for convicts for the establishment and operation of farms in connection with all the prisons of the State, for the construction of new and additional cells, modern and well ventilated in all respects, at the State prisons at Sing Sing, Clinton and Auburn, including new cell houses and cell blocks where needed and the thorough remodeling of existing cells where practicable, and the appropriation of an ample sum of money for accomplishing all such purposes.

Referred to Ways and Means Committee.

By Mr. MATHEWSON.— Whereas, The people of this State have had their attention called as never before to the need of prison reform, and

Whereas, The conditions are such that immediate legislation is needed and there is a demand for additional buildings to house the prisoners of the State for which appropriations will be requested from this Legislature, and

Whereas, There is a growing sentiment in the State in favor of farm prisons which will provide outdoor employment for the convicts, to the end that their bodily and mental health may be improved and conserved, and in order that the State may benefit from the food products which may be raised by said inmates, and

Whereas, The State has already purchased a large tract of land which may be used for this purpose, and

Whereas, It is desirable that future appropriations for the erection of prison buildings or additions thereto may be made with regard to a comprehensive plan, and

Whereas, Legislation to this end will be referred to the committees on penal institutions of the Senate and Assembly, and said committees with a view to earnest, careful and effective legislation desire to learn the conditions which exist so as to be able to handle such legislation wisely.

Therefore, resolved (if the Senate concur), That the Committee on Penal Institutions of the Senate and the Committee on Penal Institutions of the Assembly be and are hereby empowered to visit such of the penal institutions of the State as they may deem necessary, and

Be it further resolved (if the Senate concur), That the necessary traveling and other necessary expenses of the said committees, not to exceed fifteen hundred dollars, be paid from the contingent fund of the Legislature on the certificate of the chairman of such committees.

Referred to Ways and Means Committee.

By Mr. HINMAN.— Whereas, In January, 1913, the Committee of Inquiry was appointed by the Governor, pursuant to statute, with an appropriation of $50,000 for the purpose of examining and investigating departments, boards, bureaus, and commissions of the State and advising the Legislature as to its appropriations for general purposes; and

Whereas, Said committee expended said appropriation, held extensive hearings and made a report and recommendation in which the total appropriations for general purposes for the year 1913 were fixed at $40,980,284.51; and

Whereas, The appropriations actually made by the Legislature of 1913 were about $50,000,000; and

Whereas, The stenographer's minutes of the hearings before said committee were preserved and transcribed and copies thereof delivered to the members of said committe; and

Whereas, Said minutes should save duplication of investigation, time and expense and be of great

use in preparing appropriation bills for the year 1914,

Therefore be it resolved, That the members of said committee, namely, John N. Carlisle, H. Gordon Lynn and John A. Delaney, and any other person or persons who may now have the same in their possession, be and hereby are requested and directed to deliver said copies to this Assembly forthwith for its use in the preparation of appropriation bills for the current year, together with such other records, documents, testimony, papers, tabulations or reports as may have been introduced in evidence before them during said investigation.

Referred to Ways and Means Committee.

FEBRUARY 23, 1914.

By Mr. ELLENBOGEN.— Whereas, There is no uniformity in the statutes, codes, ordinances, and regulations relating to the safe construction of buildings and the prevention of fires therein; and

Whereas, As a result of such chaotic condition of the laws, a conflict of authority has arisen among the various officials, departments and bureaus charged with the enforcement of such laws; and

Whereas, In the city of New York, the tenement house department, the department of labor, the industrial board, the fire department, the bureau of fire prevention, the health department, the department of water supply, gas and electricity, and the building bureaus of the five boroughs, are all empowered with authority for the purpose of protecting life and limb in the construction of various types of building throughout the city of New York and with the prevention of fires therein; and

Whereas, In spite of the earnestness and willingness of these public officials to co-operate with one another and with the taxpayers in attempting to avoid contradictory orders, no substantial and beneficial results have accrued therefrom; and

Whereas, Such condition of the laws is the reason advanced for the non-compliance therewith by real estate boards, property owners and others upon whom falls the duty of complying with the various regulations; and

Whereas, This conflict of authority not only causes a hardship but is used as a pretext by the unscrupulous for the evasion of the laws to prevent the loss of life and property by fire; therefore be it

Resolved, That the Committee on Affairs of Cities of the Assembly, or a sub-committee thereof, be hereby authorized and directed to conduct a thorough investigation into all of the departments of the State and other political subdivisions thereof for the purpose of determining the value of the existing building and fire prevention laws, ordinances and regulations, the enforcement and operation thereof and the results obtained therefrom, and the effect of the orders issued by the various departments and bureaus; and that said committee be and it hereby is authorized to conduct hearings and take proof and testimony in Albany or in any part of the State; that such committee be authorized and empowered to subpœna and enforce the attendance of witnesses, including public officers and employees, and to require the production of books and papers, including public records and documents, to employ counsel, stenographic assistant, investigators, and such other employees as may be necessary for the purpose above set forth.

Referred to Ways and Means Com.

By Mr. MALONE.— Resolved (if the Senate concur), That a joint committee of the Legislature, consisting of two members of the Senate, to be appointed by the President of the Senate, and three members of the Assembly, to be appointed by the Speaker of the Assembly, is hereby constituted a committee for the purpose of investigating and considering all matters pertaining to the subject of employment, employment agencies and the working of the General Business Law relating to employment agencies, and to report its conclusions to the next annual session of the Legislature, and recommend such proposed legislation in relation thereto as in the judgment of the committee will best conserve the interests of the people of the State; and be it further

Resolved, That the committee be authorized to sit during the recess of the Legislature outside of the city of Albany; that it be authorized and empowered to subpœna and compel the attendance of witnesses, including public officers and employees, and the production of books and papers, including public records and documents; to administer oaths, take proof and testimony, employ counsel and expert witnesses and examiners, stenographers and other necessary assistants; and have all the powers usual or incident to legislative committees, including the adoption of rules for the conduct of its proceedings; and be it further

Resolved, That the actual and necessary expenses of the committee in carrying out the provisions of this resolution, not exceeding the sum of five thousand dollars ($5,000), be paid from the moneys appropriated for the contingent expenses of the Legislature by the Treasurer on the warrant of the Comptroller to the order of the chairman of the committee, and that the committee may also receive and expend moneys voluntarily contributed to it for such purposes.

Referred to Ways and Means Com.

Mar. 19. Reported and adopted.

Mar. 20. In Senate. To Finance Com.

By Mr. GOLDEN.— Resolved, That the Attorney-General of the State of New York forthwith certify to the Assembly an itemized statement showing any and all moneys paid, or contracted to be paid, and any and all proceedings had in the attempted extradition, attempts to return, and prosecution of one, Harry K. Thaw, since August 17, 1913, the date of his leaving Matteawan State Hospital, said Thaw having been incarcerated in said hospital in February, 1908, with no indictment pending against him, after having been duly adjudged sane by a commission of the Supreme Court, and after having been acquitted by a jury; said statement to show all moneys paid, or contracted to be paid, in the Dominion of Canada, the names of all attorneys, counsel, barristers and solicitors, members of the Bar of the State of New York, and of the Province of Quebec and of the Province of Ontario, who have been retained and employed by said Attorney-General or his representatives, with the designation to which bar each attorney belongs, the services performed

by each, with detailed data as to when and where each attorney performed said services, and the amount paid or contracted to be paid to each therefor; also the names of all detectives, officers, messengers, chauffeurs, or any and all persons employed by the aforesaid Attorney-General or his representatives in any capacity whatsoever in the aforesaid case of Harry K. Thaw, the work performed by each, when and where such work was performed, and the amount paid, or contracted to be paid, to each therefor; also all automobile rentals and special trains hired, from whom or from what corporation rented or hired, with dates, for what purposes rented or hired, distances traveled and amounts paid, or contracted to be paid, for said rentals or hiring.

Also, that the said Attorney-General forthwith certify to the Assembly an itemized statement showing any and all moneys paid, or contracted to be paid, and what attempts and proceedings are being made, or have been made, to extradite, retake and return one, Edward L. Brown, at present under indictment in Kings county for manslaughter, having killed his father on April 27, 1909, and having been duly adjudged insane by a duly appointed commission and duly committed to Matteawan State Hospital on June 24, 1909, and who escaped therefrom on June 23, 1912, in company with one, Sheldon, at present under indictment for rape, said Sheldon having been duly committed to Matteawan State Hospital as insane; said statement to show why these two dangerous criminal lunatics, now under indictment and adjudicated insane, have not been and are not pursued, and have not been indicted for conspiracy, and why no efforts have been made other than the offering of the usual reward of $50, in as much as, being at present under indictments for crime, they could have been, or can be, extradited from Canada or any other foreign country, or from any State in the United States, without subterfuge or bad faith.

And, that the Attorney-General certify to the Assembly why Mrs. O'Shaughnessy, who killed her husband in New York county and who was acquitted of murder by a jury in 1912 in New York county, by precisely the same verdict as Thaw, was committed to Wards Island Hospital and was released within three months thereafter:

And, why Frank Jackson, who killed his wife in Niagara county in 1907, was discharged and liberated from Matteawan State Hospital in 1910; why William Gray, who killed his mother in Onondaga county in 1908, was discharged and liberated from Matteawan State Hocpital in 1912; and why, James Courtney, alias James Monroe, alias Leadville Jimmy, alias John Kelly, who deliberately killed an old woman in New York county in 1903, who was indicted for murder, and who was declared insane by a commission on November 7th, 1907, and committed to Matteawan State Hosepital, under the administration of District Attorney Jerome, was subsequently discharged and liberated; and a report on all other similar cases of escapes and discharges from Matteawan State Hospital during the past ten years;

Also, that the Attorney-General certify to the Assembly what powers were given to William Travers Jerome, a private citizen, to go into Dutchess and New York counties, to secure, or attempt to secure, an indictment for conspiracy against Thaw in the aforesaid counties, since these counties each have their own district attorneys elected by the people, while the power to go into other counties was recently denied the present district attorney of New York county on the ground that other counties have their own district attorneys.

Resolved, That all moneys spent or contracted to be spent in the Dominion of Canada in the attempted extradition, attempted return, and prosecution of said Harry K. Thaw, are illegal and not a legal charge upon the State of New York; that the extradition of a criminal, much less an acquitted person, from a foreign country is a matter between the federal government of the United States and the government of the foreign country, and is not a matter under the jurisdiction of the State of New York, and doubly so in the case of Thaw, since Thaw is a citizen of the United States and a resident of the State of Pennsylvania, and is now without the jurisdiction of the State of New York, and that, therefore, all moneys paid, or contracted to be paid, in attempting to bring the said Thaw within the jurisdiction of the State of New York are illegal and a wanton waste of the public money of this tax-ridden State and against the policy of retrenchment of the Governor as outlined in his message to the present Legislature, that any such attempt to bring the said Harry K. Thaw within such jurisdiction should be left to the private expenses of several eminent individuals who may desire his confinement in an asylum.

Be it further Resolved, That the Attorney-General and Comptroller of the State of New York be prohibited from authorizing and certifying the expenditure and payment of all such moneys already contracted to be paid in the case of Harry K. Thaw, and that they be further prohibited from authorizing and certifying the expenditure and payment of all further moneys in connection therewith from the date of this resolution.

Referred to the Judiciary Committee.

By Mr. GOLDEN.— Resolved, That it is the opinion of the Assembly of the State of New York (1) that the integrity, peace and dignity of the People of the State of New York have been heretofore fully maintained in the proceedings both in court and out of court, instituted in connection with the prosecution of Harry K. Thaw in which he was acquitted by a jury; (2) that the interests of the people of the State of New York in the question of the present mental condition of said Harry K. Thaw, a non-resident of this State, are not now in jeopardy, and are now, in any event, only technical, and of interest to a few persons, such as lawyers and physicians; and (3) that all further proceedings, if any, against said Harry K. Thaw should be committed to and left to the States of New Hampshire and Pennsylvania, or other State or country where he may be found; (4) that the people of the State of New York and Governor of the State of New York should withdraw their appearance and demand for return of said Harry K. Thaw and should withdraw from all extradition proceedings now pending in the State of New Hampshire, and in the United States District Court of that district, against said Harry K. Thaw.

Be it further Resolved, That the Assembly of the State of New York hereby requests the Governor of the State of New York and the Attorney-General of the State of New York to withdraw their demand for extradition and return of said Harry K. Thaw to the jurisdiction of the courts of the State of New York and to withdraw from all proceedings against said Harry K. Thaw now pending outside of the State of New York, and to stop the obligations and liability for and expenditure and payments of further money for the purpose of extraditing, or attempting to extradite, and return said Harry K. Thaw to the State of New York for the reason that the same are a useless and wanton waste of the time, efforts and funds of the people of the State of New York, and their officials.

Referred to the Judiciary Committee.

By Mr. CONKLING.— Whereas, The State of New York has expended a large sum of money for the construction and improvement of the Champlain canal, which is designed for navigation by barges 275 feet in length, 30 feet beam and 12 feet draft; and

Whereas, There are at least two places in Lake Champlain where the depth of the lake and the course of the main channel is inadequate to permit such barges to pass; and

Whereas, Navigation in Lake Champlain is a matter for federal consideration, involving commerce between two States and the Dominion of Canada; therefore be it

Resolved, That the Congress of the United States be and is hereby petitioned by the Assembly of the State of New York to appropriate, as soon as possible, the sum of $300,000 for the improvement of navigation of said lake, and such other sums as may from time to time become necessary.

Adopted.

MARCH 3, 1914.

By Mr. A. E. SMITH.— Whereas, Notwithstanding the fact that more than half the world's total supply of radium has been obtained from the radium-bearing ores in the public lands of the United States, there remains in this country less than two grams of radium which is scarcely sufficient for the treatment of cancer in a single hospital; and

Whereas, Our radium-bearing ore deposits are rapidly passing from public ownership into the hands of a few private individuals and are being exploited on a speculative basis, with the result that American hospitals can now purchase radium from these ores only in minute quantities, in competition with a great European demand, and at a price of over three million dollars per ounce, which is far beyond the cost of production; therefore, be it

Resolved, (If the Senate concur), That the Legislature of the State of New York requests the Senators and Representatives in Congress from such State to aid in securing the prompt passage of the measure now pending in Congress, Senate bill number forty-four hundred and five and House of Representatives bill number twelve thousand seven hundred and forty-one, which is intended "To provide for and encourage the prospecting, mining and treatment of radium-bearing ores in lands belonging to the United States for the purpose of securing an adequate supply of radium for government and other hospitals in the United States," in order that an adequate supply of this most valuable element may be retained in America and that the two hundred thousand cancer patients in the United States, of whom eighty-five hundred die each year in the State of New York, may have the benefit of this most promising remedy.

Adopted.

Mar. 4. In Senate. Adopted.

MARCH 5, 1914.

By Mr. SULLIVAN.— Resolved, That the powers and duties of the special committee of the Assembly, created and appointed pursuant to resolution adopted in the Assembly on the ninth day of February, 1914, for the collection of proofs of inefficiency, waste and corruption in the administration of the highway department and the investigation of the organization of such department and the construction and maintenance of highways and the acts of persons or corporations in connection with such department, its organization and expenditure of money and details of administration of highway matters, and the investigation, if the public interest requires, of other departments of the state, be and they are hereby extended and continued until the 31st day of December, 1914, and that the time for such committee to make its report under such resolution be and the same hereby is extended to the 31st day of December, 1914, provided that such report shall be filed with the clerk of the Assembly on or before that date.

Be it Further Resolved, That such committee shall have and be deemed to have the power to investigate any department of the state, in addition to the highway department, if, in the opinion of a majority of the members of such committee, the public interest requires such additional investigation, from and after the time of the adoption of this resolution to and including the 31st day of December, 1914.

Adopted.

MARCH 16, 1914.

By Mr. HINMAN.— Whereas, The charitable institutions of this State are now investigated, inspected or controlled by at least twenty different boards, commissions and departments, producing an interlocking system of department control which is inefficient, confusing, expensive and entirely unwarranted whereby initiative is smothered in the mass of red tape and responsibility hopelessly divided, and

Whereas, An army of clerks is required in the

State institutions to carry on the correspondence with these twenty boards, departments and commissions, more than half of which would be unnecessary under any proper or sane system, and

Whereas, It has been estimated by competent experts that at least one million dollars a year can be saved if these institutions are all placed under a single responsible authority, and

Whereas, It appears from the report of an expert who has examined into this question at the request of the majority leader that in the three years ending September 30, 1912, the State spent for new buildings, improvements and betterments of the charitable institutions over two million ($2,000,000) dollars and yet the aggregate capacity of the institutions was increased only about one thousand in that period and that in five years one hundred and fifty amendments to the State Charities Law alone have been placed upon the statute books and in addition thereto there has been as many more amendments to other laws affecting these institutions, and

Whereas, These numerous amendments have multiplied the departments having control of the charitable institutions of the State and duplicated their work requiring an enormous increase in the clerical forces so that a large percentage of the officers charged with the duty of administering them have not been able to keep informed as to the law and are continually compelled to apply to the Attorney-General to determine conflicts of authority,

Therefore, be it resolved, That the Committee appointed by this Assembly to investigate the Highway Department and such other departments as the public interest might require, examine into this subject and prepare a report for submission to the Legislature of 1915, and that the preliminary report of the said expert be printed as a public document of this House and be referred to said Committee.

Adopted.

MARCH 19, 1914.

By Mr. SUFRIN.— Whereas, In the bankruptcy proceedings of Henry Siegel & Company, the present indications are that the cost of auditing the accounts of such private banking firm will be enormous; and

Whereas, Such expense will be paid wholly from the estate of such firm and it is highly desirable to minimize such expense, therefore be it

Resolved, That the Attorney-General and State Superintendent of Banks are hereby requested to represent the depositors of such firm in all proceedings for the audit of its accounts, without expense to the depositors, and to that end that the State Banking Department shall furnish auditors for the purpose.

Referred to Banks Committee.

MARCH 20, 1914.

By Mr. MACDONALD.— That (if the Senate concur) the time for making the final report by the joint legislative committee, appointed to investigate the matter of ascertaining what real and personal property is owned by the Bloomingdale Hospital and Society of New York Hospital, of White Plains and New York be extended to February 1, 1915.

Adopted in Assembly and Senate.

MARCH 27, 1914.

By Mr. BRERETON.— Resolved (if the Senate concur), that a Committee consisting of three Senators, to be appointed by the President Pro Tem. of the Senate, Acting Lieutenant-Governor and five members of the Assembly, to be appointed by the Speaker, be and hereby is created and appointed as a Joint Committee of the Legislature, who are hereby given power to continue the investigation of the Joint Committee of the Legislature to investigate the diversion of the waters of Niagara river for power purposes, appointed by the Legislature of 1913, and said Committee is hereby authorized and hereby given further power to investigate the waters of Niagara river for power purposes, and the operation, management and development of the power rights on and along the said river; and the rights and privileges of all persons and corporations authorized to use or using or diverting the waters of Niagara river for power purposes, and the methods, operation and control of the water powers and rights of said river; and also the use and diversion of all water power in all other localities in the State of New York and on the boundary streams and all things incidental to the water power development of the State of New York or upon the boundary streams thereof; and to appear before the Congress of the United States, or any Committee thereof, or other department of the Federal Government with reference to water rights of the State of New York, or upon the boundary streams thereof, and to investigate the water rights diverted from the boundary streams in adjoining States or countries, and to report to the Legislature on the first Wednesday in January, 1915. It is further

Resolved, That the sum of fifteen thousand dollars or so much thereof as is necessary be, and hereby is appropriated for the expense of said Committee and investigation, to be paid out of the contingent fund for the expenses of the Legislature. The same to be paid on such warrant as the said Joint Committee hereby created shall by resolution prescribe.

Adopted. In Senate. To Finance Com.

LIST OF MEMBERS

OF THE

Senate of the State of New York for the Year 1914.

With Politics, Occupation and Post-office Address of Each.

By Mr. SULZER.—Requesting information from the Governor as to the Primary Law.

Adopted.

MAY 13.

By Mr. MACDONALD.—That a joint committee be appointed consisting of two members of the Senate and three members of the Assembly to investigate the affairs and needs of all institutions receiving state aid with a view of determining their requirements and recommending and drafting suitable legislation thereon and preparing preliminary drafts of the appropriation bill and other remedial legislation affecting the financial interests of the state. $5,000 is appropriated therefor.

Adopted.

May 13. In Senate. To Finance Com.

May 19. Adopted.

MAY 20.

By Mr. BRERETON.—Resolved (if the Senate concur), that a Committee consisting of three Senators, to be appointed by the President Pro Tem. of the Senate, Acting Lieutenant-Governor and five members of the Assembly, to be appointed by the Speaker, be and hereby is created and appointed as a Joint Committee of the Legislature, who are hereby given power to continue the investigation of the Joint Committee of the Legislature to investigate the diversion of the waters of Niagara river for power purposes, appointed by the Legislature of 1913, and said Committee is hereby authorized and hereby given further power to investigate the waters of Niagara river for power purposes, and the operation, management and development of the power rights on and along the said river; and the rights and privileges of all persons and corporations authorized to use or using or diverting the waters of Niagara river for power purposes, and the methods, operation and control of the water powers and rights of said river; and also the use and diversion of all water power in all other localities in the State of New York and on the boundary streams and all things incidental to the water power development of the State of New York or upon the boundary streams thereof; and to appear before the Congress of the United States, or any Committee thereof, or other department of the Federal Government with reference to water rights of the State of New York, or upon the boundary streams thereof, and to investigate the water rights diverted from the boundary streams in adjoining States or countries, and to report to the Legislature on the first Wednesday in January, 1915. It is further

Resolved, That the sum of ten thousand dollars or so much thereof as is necessary be, and hereby is appropriated for the expense of said Committee and investigation, to be paid out of the contingent fund for the expenses of the Legislature. The same to be paid on such warrant as the said Joint Committee hereby created shall by resolution prescribe.

Adopted in Senate and Assembly.
